

A vibrant indoor garden scene. The room is filled with a variety of green plants, including large-leafed species like Ficus and Philodendron, and numerous ferns. Some plants are in hanging baskets, while others are in pots on the floor or on a wooden table. A wooden chair with a green cushion is positioned in the foreground. A large window in the background provides a view of the outdoors. The text 'Jungle Vibes' is overlaid in a white, cursive font across the center of the image.
